## IVT Services

IVT-Design service surface heating

### Individual service for your project

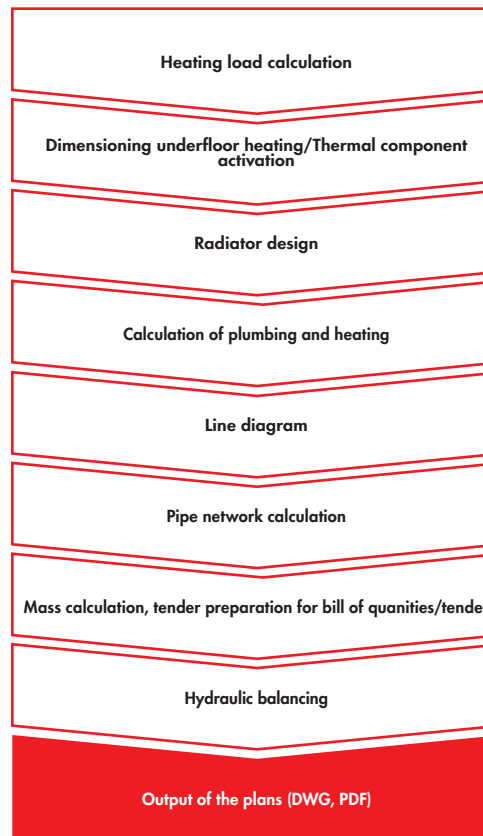

With more than 20 years of experience in planning technical building equipment, we know what matters. From a single-family home with 130 m<sup>2</sup> of underfloor heating, to industrial projects with 23,000 m<sup>2</sup> of building component activation, up to residential complexes with 234 residential units - our design team provides you a professional planning service. Great importance is attached to user-friendly and practice-oriented system planning.

### Submitting plans in the IVT customer center

You can conveniently submit your design documents online.

- Open our homepage at [www.ivt-group.com](http://www.ivt-group.com)
- Register in our customer center
- Log in to our service area under „Planning services“ with your login data
- Click through the individual sections
- Upload your documents in the corresponding fields
- Possible file formats: jpg, gif, zip, rar, png, dwg, doc
- Send us your request. We will take care of your request as soon as possible.

## Design Services in Detail

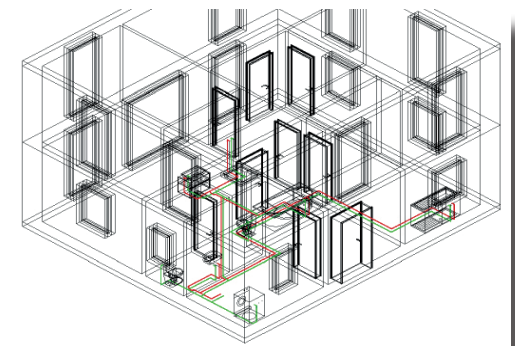

### Advantages at a Glance:

- We work with the widely used technical building equipment planning software from liNear GmbH
- The software is Autocad-, Revid- and BIM-compatible
- **Individual:** Design services customized to your requirements
- **Competent:** SHK design professionals realize planning services for all types of buildings
- **Free of charge:** If the project is realized with our products, the design service is provided as a free service for you

## Required Documents

For a heating calculation are the following documents required:

- Plan consisting of all levels and building sections with all dimensions (format DWG/PDF)
- For heating load calculation: Energy certificate or thermal insulation certificate with U-value specifications, project data
- Request form for design service
